Distribuidores autorizados para Uruguay Venta - Ingenieria - Instalación - Mantenimiento Francisco Soci 1531 Teletono: +598 2 707 48 01 Montevideo Uruguay Mail: info@techingenium.com.uy www.techingenium.com.uy

- > Control unit equipped with resistor
 - $-1 k\Omega / 1 W or$
 - $-10 k\Omega / 1 W$
- > Depending on the order, the control unit can be equipped with
 - fuses
 - varistors
 - diodes
 - capacitors
 - other electrical / electronic components
- > Enclosure made of polyamide
- > Connection cross-section 0.75 ... 2.5 mm² single-wired / fine-stranded

The enclosures of the control units and of the contact elements are identical.

Versions with screw terminals or with spring clamp terminals are available.

Handling of the Conductor Connection as a Part of 8453/1

With element types 8453/1 (screw terminal), 1 and 2 conductors can be installed under a conductor connection. With one wired conductors, the conductors must have the same kind of cross section and be made of the same material. Conductors can be connected without any kind of special preparation.

Handling of the Conductor Connection as a Part of 8453/2
